

Maximize Your Savings with Energy Saver North Carolina Program

Find Out If You Qualify for Full or Partial Project Coverage

To determine if you meet the income guidelines for the Energy Saver North Carolina program, you'll need to compare your household income to the Area Median Income (AMI) limits based on your household size. Here's how it works for **HOMES** projects and for **HEAR** projects:

HOMES

Homeowners Managing Efficiency Savings

These rebates are for improvements that increase the overall energy efficiency of a home, such as insulation, air sealing, and upgrading heating and cooling systems.

HEAR

Home Electrification and Appliance Rebates

These rebates support the purchase of energy-efficient appliances and the electrification of home systems, like cooking, laundry, hot water, and heating and cooling.

100% Rebate: If your household income is less than 80% of the AMI, you can get a 100% rebate on project costs, up to \$16,000 for **HOMES** projects and up to \$14,000 for **HEAR** projects.

50% Rebate: If your household income is between 80% and 150% of the AMI, you can get a 50% rebate on project cost, up to a range of \$2,000 to \$14,000.

To determine your eligibility:

- Find your household size on the AMI chart.
- Check the corresponding income limit for 80% of the AMI.
- Compare your annual household income to this limit.
